\$125/per person

\$300
value

CME/MOC
eligible for
up to 11
credits

- Fellow and faculty access to the curriculum is designed to be purchased together so it is strongly encouraged to purchase access for **at least ONE Faculty member**. This ensures access to manage fellow completions and attendance, exclusive video content for classroom facilitation, along with new updated documents, citations, and references to be sure that faculty and fellow materials align.
- The curriculum is designed to be incorporated into existing Infectious Diseases (ID) Fellowship training program curricula. To accommodate varying AS resources at home institutions; the curriculum includes direction on how to use the various educational activities in order to capitalize on or augment existing AS resources for both fellows and faculty. Estimated time for completion: 4-5 hours for faculty, 11 hours for fellows and self-study

*New to 2019
Curriculum:*

- SMART Exercise Video
- "Why Stewardship" Videos
- Faculty Roadmap
- New and Improved Interface

*Quantity based discounts will be available for both fellows and faculty, for details visit:
