

CORE
Antimicrobial
Stewardship
CURRICULUM

The CORE AS Curriculum is designed to provide ID fellows with a foundation in AS, regardless of ultimate career plans, to ensure that we are training future leaders in the field.

ADVANCED
Antimicrobial
Stewardship
CURRICULUM

The Advanced AS Curriculum is designed to provide ID fellows with the knowledge and skills to become leaders in AS and is intended for those who are considering or actively pursuing a career in AS.

FACULTY ACCESS INCLUDES:

- 2 year access to all eLearning modules & presentation slides
- Additional resources such as pocket cards and references
- Alternate, in person, teaching methods w/ evaluation components
- Manage fellow completions

FELLOW & SELF - STUDY ACCESS INCLUDES:

- 2 year access to all eLearning modules
- Additional resources such as pocket cards and references

	MEMBER	NON - MEMBER
FELLOW	\$125	\$175
FACULTY	\$200	\$300
SELF - STUDY	\$200	\$300

* Price per curriculum

Self - Study versions CME/MOC eligible for up to 15 credit hours

NEW

CORE Curriculum features a new Bugs and Drugs primer to provide learners foundational knowledge in microbiology and pharmacology

15% Discount when purchasing both the CORE & Advanced Curricula

Fellow and faculty access for both curricula is designed to be purchased together, so it is strongly encouraged to purchase access for **at least ONE Faculty member**. This ensures access to manage fellow completions and attendance, exclusive video content for classroom facilitation, along with updated documents, citations, and references to be sure that faculty and fellow materials align.
